Back-Office

IMMK provides a comprehensive Back-Office service. This includes establishing a legal entity, registration for all taxes that may be required, opening bank accounts, running an accounting package, producing monthly management reports and taking care of all the administrative issues that any business may require.

Tax Services

We deal with all South African related tax issues. These are not limited to Income Tax, VAT and PAYE but also include issues such as Thin Capitalisation, Dividends Tax and International Transfer Pricing.

Statutory Services

Statutory services include the setting up of new companies, the maintenance of these records, as well as share transfer and related issues.

Financial Consultancy

In the financial consultancy practice we have experts available for various projects such as due diligence work, restructuring of businesses, development of business plans, project finance and acting as financial advisors on a variety of transactions.

Management Consultancy

We provide management advice either on an ad-hoc, permanent or structured involvement basis. We provide the service of company director, trustee or company secretary, and also assist with the development of business strategy.

Private Wealth Management

In this area we combine a number of skills and disciplines to assist with wills, estate duty planning and trusts for private individuals.
